

Dear Parent/Guardian:

The Garfield District is planning to open schools for In-Person instruction on March 8, 2021. Parents have the choice of keeping your child in the Fully Remote Model of Instruction or sending the child back to school for In-Person Instruction with the implementation of the Hybrid model. Please complete the attached survey to inform the district of your choice. The same form can be used for more than one child by selecting "NEXT" on the bottom of the form.

It is important to note that, in accordance with District policy, a student must remain in the Fully Remote Learning model for thirty school days before being eligible to return to school for In-Person instruction. If a student remains in the Fully Remote model on March 8th, the student would not be eligible to return to school for In-Person instruction until April 27th.

Thank you for completing the survey and supporting Garfield Public Schools. All surveys are due back to the district by February 8, 2021.
